**BEWARE OF YOUR GUN**

Shooting of ducks and geese opens in this part of Alberta at dawn on Saturday, November 14th, and from all indications there will be more ducks in the Carbon district than at any time during the past fifteen years. With these prospects of good hunting no doubt there will be a number of old timers bringing out the "blunderbuss" and taking the odd pot shot at ducks on the small ponds. Here we wish to point out a warning, issued recently by the Ithaca Gun Co., dealing with modern ammunition, as follows:

"Another warning we find a great majority of the shooting public just will not listen to is the warning repeatedly put out by the ammunition makers to the effect that NO Damascus or twist barrel is safe in which to use ANY modern ammunition."

Those who wish to hunt should first examine their guns, and then buy ammunition that is safe to use. Those coming from the use of modern ammunition in old guns, hunters should remember at all times that their gun is loaded and never point the muzzle at a companion—or towards themselves. If this is followed there will be fewer accidents and more enjoyable hunting trips.

**BELIEVES IN VALUE OF THE HOME TOWN WEEKLY**

The advertising value of the columns of the weekly press have long since been admitted to be greater than that of any other medium and more and more big national advertisers are coming to use the columns of the smaller local papers. The special appeal which the home town paper makes to the people it circulates among makes its advertising columns of a greater value than the city daily, where there are so many columns of advertising and news that they distract the reader's attention.

In this connection the president of General Motors Corporation, in a recent letter states: "I believe in the country weekly. I believe that no printed matter in Canada is more thoroughly read, or has more influence than the pages of the home town papers."

**ANOTHER SECRET WEAPON**

Pacing an intercom, camp in England is a man who believes he knows the secret of doubling the country's ration. He is Filippo Cattaneo, an Italian-born American, who was detained the day he was to have marketed his discovery.

For months he has been experimenting with food and has been yielding 240 cups to the pound—one and a half times the usual quantity. He took out a provisional patent, got into a fight with a firm of food distributors, and a contract was drawn up. The final signature was to have been added on June 13, but on June 10 Italy entered the war, and so Cattaneo was taken away with other aliens—with the formula in his pocket.

**Snicklefritz----**

Susie: "He put his arm around me four times last night."

Rosie: "Some arm."

Friend: "Your wife is a picture."

Newlywed: "You said it! The talking kind."

Millionaire: "Yes, I began life without a cent in my feet, and now I have half a million."

Young Reporter: "Great Scott! Who cleans them all?"

Buy: "When we reach that bend in the road I'm going to kiss you."

Girl: "Isn't that going a bit too far?"

Courthouse is the period during which the girl decides whether or not she can do any better.

Waiter: "Do you want soup?"

Diner: "Do I have to take soup?"

Waiter: "That's the soup to you."

Constable: "Now tell the court what passed between you and your wife during the quarrel."

Defendant: "A flat iron, a rolling pin, six pie plates, a kettle, a teapot and six horseboots for good luck."

Tizzy: "Does your canoe leak?"

Bun: "Only at one end. We'll sit in the other end."

**MY 40**

4 nice mud guards

4 wheel brakes

4 sleek snubbers

when the trip she makes;

4 new pistons

4 plugs too,

4 wide doors

to easily enter through;

4 bright headlights

oh how they shine,

4 more payments only

then she's mine.

The excited husband dashed into the police station at half past two in the morning. "My wife!" he gasped. "I want you to find my wife! Been missing since right this evening. Oh, find her for me!"

"Particulars," asked a sergeant. Her husband said:

"I—I don't know."

"Do you know how she was dressed?"

"No; but she took the dog with her."

"What kind of a dog?"

"Bridle-bell-horrier, weight fifty-five pounds, four dark blotches on his body, shading from grey into white, three white legs, and right front leg bridled, all but the toes. A small nick in his left ear."

"That'll do," gasped the sergeant, "we'll find the dog!"

Modern MANUFACTURING by mass production brings the products of science and invention to every class in the community. Prices are lowered, so that millions enjoy comforts and luxuries their forefathers never knew.

The Bank of Montreal has co-operated with the manufacturers of Canada from the simple ways of 1817 to the modern operations of 1940. Tens of thousands of workers in manufacturing plants find here the banking service they need.

Serving Canadians and their industries in every section of the community, we invite you to discuss YOUR banking requirements with us.

**ANSWERS TO QUESTIONS ON CITIZENSHIP**

Born? Yes, sir.  
 Where? Russia.  
 Why did you leave Russia? Because I couldn't take it with me.  
 Where your forefathers born? I only had one father.  
 Your business? Where is Washington?  
 He is dead.  
 Mr. Cohen, do you promise to support Canada?  
 How can I with a wife and six kids.  
 Now, Mr. Cohen, if the prime minister died, who would take charge?  
 The undertakers.  
 Who discovered America?  
 Columbus.

Where is he, in Ohio.  
 Where was the B.N.A. Act signed? At the bottom.  
 Were you ever convicted of crime? No, I have a good lawyer.  
 Do you know why the hand of the statue of Liberty is eleven inches? Yes, because if they had made it 12 inches it would have been a foot.  
 This is all Mr. Cohen.  
 When will I get my papers? They will cost you \$5.00.  
 Oh, sir, I knew there was a catch in it somewhere.

An old lady of the village was very angry because she had not been invited to an outing her friends had arranged. On the morning of the event the townswomen related and asked her to come.  
 "It's too late," she snapped, "I've already prayed for rain."

**DO NOT NEGLECT TO REGISTER ALL YOUR GUNS**

Do not neglect to register rifles, shotguns, and all firearms before September 15. This applies to all citizens in the Dominion, the registration is made with the local R.C.M.P. or your municipal secretary.

A federal order-in-council imposes a penalty of a \$500 fine or two years imprisonment for cases of non-registration of shotguns or rifle.

All aliens must surrender firearms, ammunition or explosives for the duration of the war. This applies to Americans who are residing permanently in Canada or visiting in this country. After these firearms have been surrendered it is possible to make application to the Commissioner of the R.C.M.P. for exemption. This exemption may be granted if accompanied by reference in respect to character.

**A Successful Advertiser's Ideas**

John Wannamaker, founder of the John Wannamaker store, Philadelphia, was the first advertising genius in the retail advertising field. In addition to the novelty of his advertising, he kept persistently at it. He once said:

"Continuous advertising, like continuous work, is most effective. If there is any enterprise in the world that a quitter should leave alone, it is advertising. Advertising does not jerk; it pulls. It begins very gently at first, but the pull is steady. It increases day by day, year by year, until it exerts an irresistible power. To discontinue your advertisement is the same as taking down your sign. I would as soon think of doing business without clerks as without advertising."

## LOCAL NEWS

The regular meeting of the Carbon Red Cross, Women's Division, will be held Monday evening, September 9th at 7:30 p.m. in the United Church annex. Members are asked to bring in all completed work so that same can be sent away to divisional headquarters immediately.

Verlene Moorhouse, daughter of Mr. and Mrs. Vyring Moorhouse who was injured in an accident in Calgary last June, returned last Wednesday to her home in Carbon after spending the past two and one half months in a Calgary hospital.

Mr. and Mrs. C.H. Nash were visitors to Stettler over the week end, at the home of Mr. and Mrs. C. Priesen.

Mr. and Mrs. Sam Poxon of Drumheller were Carbon visitors last week.

Mrs. R.J. Fairbairn arrived Thursday from Calgary and spent the week end at the home of Mr. and Mrs. E.P. Torrance. Mr. Fairbairn and Zona arrived Sunday and the family returned to Calgary Monday.

Carbon school opened on Tuesday and a number of the lower grades report more absentees, owing to the epidemic of measles in town and country.

Mr. and Mrs. W. Poxon of Drumheller, and Mrs. D. Heath and Mr. and Mrs. E.J. Bennett of Carbon returned Sunday from a two weeks motor trip to the Okanagan district in British Columbia.

Mr. and Mrs. Vern Harney and family spent the week end visiting with relatives in Lethbridge.

Mr. and Mrs. Bill Lammie arrived from Bentley Monday and took their son and daughter back after spending the past few weeks with their grand parents, Mr. and Mrs. Chas. Graham.

Marion Torrance returned home on Monday from Cranston where she had been visiting with Mr. and Mrs. Clarence Hay.

Miss Inez Sobey left Sunday for Edson where she will teach school this term.

Little Donna Davidson of the Ghost Pine district is staying at the home of Mr. and Mrs. Cyril Oliphant.

Mr. and Mrs. H.M. Robinson of Calgary arrived Sunday and spent the week end holiday at the home of Mr. and Mrs. C.A. Cressman.

Mr. and Mrs. J. Flaws and family were week end holiday visitors at Banff.

Miss Alice Lacombe returned Monday and has resumed her duties as teacher of Room I of the Carbon public school.

Send or bring in any news items that you may know of. The Chronicle is always glad to get local news items and in many cases these are only available from the people involved.

Miss Lorraine Downey has commenced work in the local branch of the Bank of Montreal.

A number of Carbon people took in the tennis tournament at Drumheller last week end.

Mr. H. Larsen has returned to Carbon and will again teach Room III in the Carbon school.

The Second War Loan will open at banks and financial houses on Monday, September 9th. First announcement of the loan appears in this week's issue of The Chronicle.

Dick's Bakery has had a new sign painted on the front of the building. The equipment has also been painted up and presents a neat appearance.

Rev. and Mrs. F. Alf and family returned last Friday from a trip to Toronto, Sask., where they visited relatives. They went to Burlington, Iowa to the Triennial Conference, where about 1200 delegates and visitors came from the United States and Canada to meet in the great Memorial Auditorium with a capacity of 3000 persons. A whole week was spent in the performance of the business of the Denomination.

The next Conference will be held in three years time, where the Baptist Denomination will celebrate their 100th anniversary.

Mr. Merchant: If your stock of counter sales books is getting low why not order a new supply now before prices advance? Delivery can be made at any date up to 30 days and the placing of your order now will protect you against a price rise. You have nothing by ordering through a travelling salesman—our prices are positively the lowest and express charges are prepaid—The Carbon Chronicle.

## REGISTERED SEED FOR SALE

To obtain funds for threshing I am making special low prices from now until September 15th. The new Early O-32 Marquis Wheat, Registered Strals 1, cleaned. Regular price \$1.00, Special price, per bushel, 60c.  
Registered Victory Oats, Grade 1, cleaned, regular price 80c. Special, per bushel, 55c. Terms, cash with order. These prices are below cost.—Apply to Joe. Heffernan, Granger.

W. A. Braisher has on display in his store window the Challenge Cup for Mixed Doubles, won by Francis Poxon and Annie Lemay in the Alberta Provinces Lawn Tennis Championships this year. The cup bears their names in addition to many other distinguished players who have won this cup since 1932, which was the first year of competition.

A heavy pall of smoke descended over the Carbon district the first of the week, blotting out the sun. The fires causing the smoke are said to be in the north western part of the province.

At the election of Alberta Wheat Pool Delegates held in Calgary on August 15th, J.R. McWhorter was elected delegate for this part of the Province.

Mr. and Mrs. Frank Lemay left last Friday to attend the funeral of Mr. Lemay's father, T. Lemay of Kailbourn, in the Peace River Country, who was killed in a truck accident on Thursday. The funeral was arranged for Saturday, August 31st.

Harvesting has proceeded swiftly in the Carbon district during the past ten days and most of the wheat has been cut. Considerable threshing has taken place, but damp weather Tuesday and Wednesday mornings caused a halt for a time. A large percentage of the grain in the Carbon district has been threshed this fall and is now ready for the threshing. Given another three weeks of fine weather and there will be very little grain left to be threshed around here.

We understand that additional stop signs are to be erected at the Texaco corner and the post office corner.

Place your orders now for future delivery of Counter Check Books. We are direct factory representatives. The Carbon Chronicle.

## THESE THINGS ARE WORTH WHILE

- 1 The Wheat Pools introduced wheat price stabilization as an innovation in Western Canada. It is now a permanent government policy.
- 2 It cost the Pools \$22 millions to teach Canada that her wheat producers must have price protection. The Pools are paying that money back. Speaking for the Alberta Wheat Pool it can be said the price stabilization of 1929-30 will not cost the province a single cent.
- 3 The government Wheat Board was formed after a lengthy campaign towards that end by the Wheat Pools and farmer organizations. From 1921 up until a couple of years ago the grain trade fought like tigers against the suggestion of a Wheat Board.
- 4 The Wheat Board and other government wheat price stabilization measures have added at least \$200 millions to the income of the west in the past ten years.
- 5 Farmers could get little or nothing for their wheat today but for the Wheat Board.
- 6 Pool elevators have held down profit margins and protected grain producers in many ways. The trade no admits there are no large profits in the grain business as in years gone by.
- 7 Prior to the erection of Pool elevators, profits were large. In one year the profits in grain overages alone in terminal elevators at Fort William-Port Arthur were over \$2 millions. One firm made over 50 per cent in its terminal operations in a single year (Price-Waterhouse Report). These huge profits cannot be made to-day — thanks to the Wheat Pools!
- 8 When grain producers patronize Pool elevators they aid in strengthening a farmer-owned co-operative which is constantly battling for their welfare. Also they build up an equity for themselves in a useful organization. A farmer might deliver a million bushels to a line elevator company and he would not have a cent's worth of equity in the concern, nor a word to say in its operation. Remember you get the very best and fairest treatment from Pool elevators.
- 9 Ten years ago the opposition cheerfully predicted Pool elevators were bankrupt and headed for the scrapheap. Today Pool elevators are in excellent financial shape, rapidly cleaning off all indebtedness and developing plans to devote surplus earnings back to producers. This is the last thing the opposition wants to see done.
- 10 Pool elevators have made a genuine contribution to grain producers, as outlined above, and one that can be measured in millions of dollars.
- 11 If at all possible grain producers should see that their grain goes to a Pool elevator. The undisputed venom of the opposition shows that Pool elevators are succeeding in their useful and necessary objectives — the consolidating and benefitting of all farmers in Western Canada.

**Alberta Pool Elevators**

## BLOCKADE HAS REDUCED EUROPE'S WHEAT MARKETS

This year Broomfield's wheat calculations have taken into account the fact of the British blockade against Germany, Italy and German-held territories, which, Prime Minister Churchill has emphasized, will not be lifted. In other words, though France, Belgium, Holland and Norway may be able to import wheat they will be unable to do so and must depend upon Germany to supply any deficiencies. It is estimated this year Broomfield estimates that the importing country of Europe remaining open to trade will take 250 million bushels as against 450 million bushels in 1939-40. Demand from Ex-European countries, on the other hand, will be well maintained at 160 million bushels compared with 148 million in 1939-40.

Canada in common with other exporting countries is suffering and will continue to suffer from this sharp reduction in effective European demand. Indeed the over-reliance of many of the continent by Germany and the resultant depletion of the British stock are at the root of the problem of our immediate marketing difficulties. It will be the task of Canadian statesmanship not only to ease the burden which this temporary situation imposes on the individual grain grower but also to adjust our economy that, when victory is achieved, we will be able to supply the needs of a Europe once more restored to freedom.

### NO PAY BOOST FOR MINERS

Report of the cost-of-living commission which has been investigating the economic status of British Columbia and Alberta coal miners was released by Hon. Norman McFarly on Monday. The report declared no cost-of-living bonus was payable. Weekly cost of the necessities of life was found to be \$12.46 at March 31, 1940. Since only a 5% brings a bonus, the miners' wages remain unchanged. An agreement between operators and miners provides for such a bonus under the conditions named.

### LABOR SHORTAGE IMPROVED

Canada's 55 technical schools are beginning to overcome the serious shortage of skilled labor that was threatened, said Labor Minister Norman McFarly recently. Output of trained men from the schools was now easing the strain, he added. The small tool industry had been hardest hit of all by the accelerated demand for skilled labor.

### THE WEEK IN EDMONTON

Praise for the Alberta system of welcoming and placing British "evacuees" has been accepted blithely by provincial child welfare officials. They are busy people these days with new arrivals from war-torn Britain reaching the city several times weekly. Considered fine types of British children, the newcomers are keen to enter Canadian life, and to go to Canadian schools. While expressing amazement at many things, the children are perhaps mostly amazed at the slow speed of training planes over the city. After watching British Hurricanes streak across the skies they can hardly realize that such slow speed is possible.

A thirteen per cent increase in the tourist travel through the western national parks for the four months ended July 31, has been announced. A total of 36,410 persons entered the parks as compared with 32,518 for the corresponding period of 1939. Attendance at Jasper National Park reached an all-time high, with 19,950 visitors entering through the Eastern gateway, in addition to 14,600 cars and 50,000 passengers entering via the Banff-Lake Louise mountain road.

Reports from game wardens received by the government fish and game branch indicate plentiful supplies of small and big game this fall. Partidges are so plentiful in the Edmonton district that flocks have been seen feeding on the street car tracks along the McKernon Lake route. Ducks Unlimited have not completed the 1940 census of waterfowl, but declare that ducks will be more than ordinarily plentiful. "Alberta presents the best picture of the prairie provinces," said Dr. C.W. Watson, manager of the Alberta branch. Supplies of ammunition are adequate, too, say dealers. In spite of war demands, ammunition stocks are adequate.

Any decision to call a special session of the legislature must of necessity be deferred until completion of the Winnipeg and Ottawa conferences, it was stated by Acting Premier E.C. Manning, Thursday last. Government had earlier announced that immediate federal, rather than provincial action, was the speediest method of handling the situation. Alberta, however, submitted proposals for provincial action which would require federal approval. The minister did not comment on the request of independent members for an immediate session of the Legislature.

Voice on Phone: "Is Mike Howe there?"

Other Voice: "What do you think this is—the stockyards?"

"I couldn't serve as a juror, Judge. One look at that fellow convinces me that he's guilty."

"Sh-h-h! that's the prosecuting lawyer."

## RED CROSS HOPES TO RAISE \$5,000,000 IN DRIVE

The Canadian Red Cross Society will launch a nation-wide appeal for five million dollars, starting September 23, Norman Sumnerville, National chairman, announced last week.

With three emergency calls developing during the past week, including a request from the department of national defence to co-operate in the provision of eight convalescent hospitals in Canada, the Red Cross is faced with responsibilities.

An emergency call was made Tuesday last from the overseas commissioner in London, stating that 100,000 refugees who have fled to England from invaded countries, as well as the thousands of evacuated children in Britain, are in desperate need of clothing.

## LIENS RELEASED BY THE ALBERTA HAIL BOARD

A communication received from the Alberta Hail Insurance Board notifies elevator agents that, owing to the situation imposed upon wheat producers by the five bushel quota, it is the intention of the Board to release its liens on the first five bushels delivery.

It is hoped, however, that the farmers who owe these premiums will realize their responsibility to those who have lost their crops by hail, and will voluntarily pay their premiums out of the proceeds of the first deliveries if possible, or from the proceeds of the sale of live stock or poultry.

The specialist sat back in his chair, looking very grave.

"I am afraid," he said slowly, "that there is nothing else to be done. You are in a serious run-down condition, and the only thing that will cure you is a complete change of atmosphere. You must get away. The best thing for you would be a sea voyage. Can you manage that?"

"Certainly," replied the patient, briskly, "I'm the captain of a liner."

## A.M.A. PROTEST SPEEDING

Enforcement of the Vehicles and Highway Traffic Act in this province has been called for by the Alberta Motor Association, which has submitted a request to the provincial authorities and the R.C.M.P.

A recent communication from J.A. Kroppel of Calgary to the highway traffic board drew attention to complaints of visiting tourists. These included speeding and passing cars on dangerous corners and hills, parking on highways after dark, passing cars without dimming lights and lack of proper signals when passing cars.

Further need of action was revealed when a member of the Calgary branch reported that in one trip over the main highway between Edmonton and Calgary he noted the following law violations: 22 cars with no tail light; 27 with one head light; 109 failed to dim their lights; 28 were travelling at speeds estimated between 60 and 70 miles per hour.

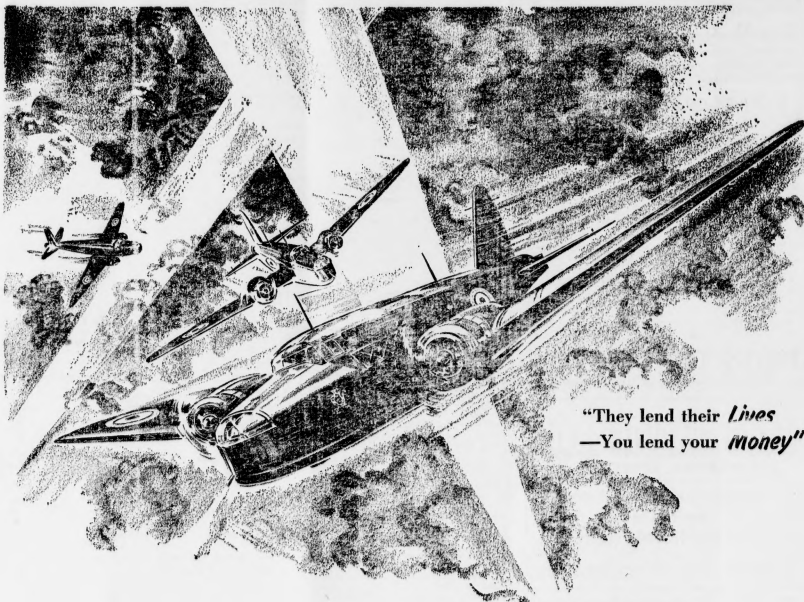

Reduction of the number of accidents on Alberta highways will be effected only through elimination of dangerous driving and the enforcement of traffic regulations.

## Commercial Printing

Do not try to economize on necessary expenses. Neatly printed business stationery is just as important to your business as any other of your necessary expenses, and it is poor economy to do without it. Blank writing paper and forms on which your name is written in with ink do not raise the prestige of your business. And if it's economy that you want, see us and find that our prices are most reasonable.
